

What is a Speed Business Meeting?

A Speed Business Meeting consists of 3 sessions lasting 20 minutes each. You will be seated at round tables where each person has 2 minutes to present their company, exchange business cards and establish new contacts. After 20 minutes, you will be asked to change tables so that you have the chance to meet new people at every session.

You will be asked to name 3 sectors of interest. This then enables us to arrange meetings for you with those companies you would like to meet.

The final part of the meeting is an informal cocktail, called a Business Mixer. This is the time when you can have a drink, continue your conversations with people you have already met during the 3 Speed Business Meeting sessions, establish new contacts or talk to old friends.

We hope you enjoy the event!

Agenda:
